

MTT - 5 Good Financial Reads for Your Reading List

Are you looking for some good books on personal finance? With so many titles out there, it may be hard to decide which book is the best to start with. I'm presenting 5 popular personal finance books you may want to consider reading this season.

Welcome to Money Tip Tuesday from the Making Money Personal podcast.

If you enjoy reading books and are looking for a few suggestions for some good financial reads, we have some ideas for you.

Here's a list of popular financial reads you may find helpful for establishing, planning out and reaching your financial goals.

Before I continue I just want to note I'm listing these based on their popularity and recognition. Triangle has not been paid in any way by the authors to share their books on this list.

1. The Millionaire Next Door by Thomas J. Stanley
 - a. This book talks about the kinds of decisions wealthy people make to get rich and discusses how you can do the same. There are many everyday millionaires all around us, many may be right down the street or next door to you. If you want to learn about the principles and mindsets that lead people to become millionaires, this book will help you understand the process behind building wealth that will last.

2. Think and Grow Rich by Napoleon Hill
 - a. What is the real secret to success? Is there even one to pin point? This book teaches you some of the simple, time-tested techniques that can help you grow your wealth. If you enjoy learning about what many historical figures like Thomas Edison, Henry Ford and others have done to create and build their own wealth, you'll find their stories highlighted in this book to teach lessons about life, work and money. It may have been written in 1937, but the principles and techniques still ring true today.

3. Total Money Makeover by Dave Ramsey
 - a. If you're still at the beginning of your financial journey, this book is a great tool to start with. It provides a practical perspective on money that you can apply to your personal position and ultimately reach financial freedom. Covering topics like debt, saving, spending and more, this book can help you make sense of even the most chaotic of financial situations.

4. I Will Teach You to Be Rich by Ramit Sethi

- a. This book is designed to provide a 6-week program to put you on a direct financial track to building your own wealth. The author covers topics like how to pay down debt and loans, set up automatic saving strategies, investing tips, and more.

5. Retire Inspired by Chris Hogan

- a. Do you dream of retiring one day? This book will help you think and plan for your future so you can retire with confidence. Appropriate for all ages, anyone looking ahead at retirement can use this book to learn about investing, evaluate their financial situation and set up a personalized strategy to retire prepared and comfortable.

That rounds out my list of 5 popular financial books you can start reading this season. I'll list all the links in the show notes if you want to check them out.

If you've already read one or maybe more than that we would love to hear what you thought. Let us know in the episode comments or join our Making Money Personal Facebook page to share what you think with us and the other listeners.
