The Power of Faith

1. Faith Requires Action

In other words, faith without action is not really faith at all. If you believe, you will act differently.

2. Faith Makes the Impossible Possible

It's the strangest thing, having faith that you will succeed, will actually cause you to succeed. Your faith will attract to you the components necessary for your success.

3. You Can Grow Your Faith

The Apostle Paul said, "Faith cometh by hearing." That is true but remember; "Fear also cometh by hearing." So guard what you hear, guard what enters your thoughts, because what you continually hear will grow on the inside of you, be it faith or fear.

4. Have Faith in Faith

Without being fully convinced that what you want to happen is about to happen you won't take the steps necessary to make it happen. When you believe something is going to happen, you get prepared, you start making changes, you get ready for the pending modification that you're about to experience, you're certain it's about to come.

5. Fear is Faith

"Fear is faith that it won't work out." - Author Unknown

If you're using your faith, use it for your benefit. Since you're going to believe something, you might as well believe something positive. Use your faith to do the impossible, dare to do what's never been done before.

6. Faith Feels

"Faith is a bird that feels dawn breaking and sings while it is still dark." - Rabindranath Tagore

Faith does not "hope" that you succeed; neither does it wish that one day you succeed. When you have faith, you know that success is yours, and you act like it.

7. Achievement Requires Faith

Faith is a power that can shape your destiny and that will alter your life!
